Bio

Eli Ostheimer is a versatile songwriter, who is also an artist both under his upcoming solo project entitled "Garret Elias" and as the lead singer of the band good problem. With a musical range that spans pop, alternative, hip-hop/rap, country, folk, and the dance/electronic genres, Ostheimer's eclectic artistry traces back to his early teens. Inspired by hip-hop giants like Mac Miller and J Cole, he began his musical journey at the age of 13 rapping under the artist name "30".

The year of 2020 marked a significant expansion in his musical capabilities; learning to play the guitar amidst the COVID pandemic, he delved into pop and alternative music, drawing influence from bands such as Counting Crows, The Kooks, and Red Hot Chili Peppers. Beyond his involvement as Garret Elias, good problem and 30, Ostheimer dedicates himself to evolving his work as a songwriter, a pursuit that has enabled collaborations with a diverse array of creatives including: Said The Sky, Odd Mob, ALINA, Boy In Space, spookybands, Stu Stapleton, Public Library Commute, Mathias Julin, Augustana, Quarters of Change, and Heather Sommer.
