### Bio

The Brummies are a genre-defying band that blend the warmth of nostalgia with a forward-thinking sonic vision. Known for their immersive soundscapes and vivid storytelling, they craft music that is as emotionally resonant as it is sonically adventurous. Their style merges shimmering melodies and dynamic rhythms with an ever-present curiosity, resulting in a sound that feels both cinematic and surreal. With their latest album *Drift Theory*, The Brummies delve deeper into themes of connection, time, and identity—offering listeners an experience that is meant to be felt as much as heard.
